

SOFTWARE INTERFACES

Keystone has developed many standard interfaces to the software/systems of other vendors and governmental agencies, which make our systems more productive and useful for our customers. The standards compliance of our basis platform make it relatively easy to develop and maintaining a variety of data imports and exports. The following list, while not totally exhaustive, references most of the various interfaces presently available with Keystone's *LoGIC* and *SKools* application systems, categorized by major product area and type of interface.

Many interfaces are included within the corresponding module's license/maintenance fees (such as some of the more straightforward data imports or exports). For some of these "included" interfaces, Keystone may have a small, one-time implementation charge, to be determined on a case-by-case basis, relevant to each customer's particular needs.

For some of the more sophisticated interfaces, Keystone sells these as separate modules, including annual maintenance fees. These are listed directly below:

Interfaces Licensed Separately (contact Keystone for specific pricing)

FIS

- **Vendor Shopping Cart** – for the *KeyNet* Requisitions module: *Office Depot*, *Lakeshore Learning*, *School Specialty*, *Amazon* (other supply vendor "shopping cart interfaces" may be developed as needed)
- **Ed-Data purchasing interface**

KEMS

- **Time Clock/Payroll Interfaces** – *WorkForce*, *Kronos*, *NOVAtime*, *VeriTime Timeclock Plus*, *SoftDocs EMMA*
- **Substitute Tracking/Placement** and **Employee Attendance Interfaces** – *AESOP*
- **Employee Benefits Import** – *CBIZ* and *BenefitsDirect*. (Also an export of employee demographic information.)
Keystone has a standard import of dependent information and insurance benefits records, so that customers who do not use our benefit enrollment module may produce the necessary ACA forms/reporting from our system.

PAAS

- **Land Records/ESRI Mapping Systems** – (Web PAAS interface to *ESRI* web site maps is complete. Land Records user/*ESRI* interface is in development.)
- **ProfitStars RemitPlus check scanning** – (In addition to Keystone Interface costs, this requires implementation of scanning equipment and ProfitStars software not provided by Keystone).
- **Real Estate appraisal data** – imports from *Stonewall CAMRA*, *Tyler Eagle*, and *Tyler CAMA* systems.
